AKA: Megan Danielle Lopez

The proceeding began at 10:44

Connolly provided an update to the Board, that she was provided with the last page of the AZ IV Medics Standing order protocols that were signed by the Medical Director prior to the incident, Respondent provided CEU certificates for courses she recently completed, and there were no changes made to the facts.

Loni Lowe, Complainant, was present telephonically and addressed the Board and stated that Respondent gave CL an expired treatment that had been recalled for sterility issues. Complainant reported a neuropharmacologist told her CL showed all the signs of poisoning and CL's health status continued to decline. Complainant explained the impact of the incident on CL and their family.

Quezada was present and addressed the Board reporting she left AZ IV Medics in 2020 due to unsafe practices. Respondent explained she never acted independently from the signed standing orders, the treatment was not expired, she was an ER nurse, and indicated the complaint was due to the actions of AZ IV Medics owner. Respondent reported her charting had since improved and explained this process had been an education.

Respondent's attorney, Kathleen Lambert, was present and addressed the Board, and requested a letter of Concern. Lambert referenced a recent case study and pointed out the differences in this case. Ms. Lambert reported advisory opinions are sought when the rules are not clear and stated Respondent would not be in this situation if the advisory opinion was in place at the time.

Dupree asked whether the treatment was expired. Connolly reported there was no evidence to substantiate the treatment was expired. Locnikar stated that compounding is not a real standing order, and there was no assessment by a provider. Board staff reported the facts reveal there were no specific orders and CL was not assessed by a provider prior to administration of the IV. McCormies explained the concern of standing orders and the differences in an in-home setting compared to the ER, and stated that in an ER, the provider does an assessment. Hill-Mekoba reported Respondent went beyond her scope of practice. Dupree reported this was not a new problem and, to the public, it has been a blurred line. Dupree agreed it was an issue with scope.

Hill-Mekoba motioned, Dupree seconded, and it was unanimously carried, based upon the information presented at this meeting and contained in the investigative report, offer a Consent Agreement for a Decree of Censure. If not signed within 30 days, issue Notice of Charges.

VII.B.5 Program Approvals

VII.B.5.d. Brookline College BSN Curriculum Change Bitza

The proceeding began at 1:24

Bitza did not have any updates.

Abdel Yosef, Provost, was present and addressed the Board stating that the curriculum change is an outcome of their current Consent Agreement. Yosef stated that the curriculum change is based on recommendations from the Board approved consultant. Yosef stated that the curriculum is accredited by CCNE. The didactic portion of the curriculum is all online with in person clinical experiences. Brookline has the resources in place to support students and faculty with the new curriculum.

Shevonne Scott, National Dean, was present.

McCormies asked if the curriculum content and modality of the new curriculum was discussed with the consultant and other Nurse leaders in the Nation.

Yosef stated that the content, theory base, and delivery modality were discussed. Yosef stated testing will still be conducted in person and not online. McCormies stated that this curriculum change was implemented by a number of schools during Covid and there was a decrease in NCLEX scores. McCormies stated that it can be very difficult for pre-licensure students to grasp and gain full confidence in learning nursing theory. McCormies asked members of the Education Committee if the challenges of teaching with this modality were discussed.

Smith answered stating that the structure of the curriculum is very strong and well supported. Smith stated that students don't always understand the commitment and understanding of how to learn effectively online. Smith stated that the Education Committee struggled with the program still being on probation. Yosef stated that the faculty has office hours built into the program for the teachers to be available in person or one on one online to help any students that are struggling.

Al-Hark asked if the program will have the option to enroll in either a didactic face to face option or hybrid. The program change application states that the office hours are expected and not mandatory. Yosef stated that there is an expectation that the faculty will have a percentage of time dedicated to helping students.

Board members discussed when this curriculum change would be implemented. Mamaluy stated that the Board does not regulate general education courses. Yosef stated that this change would begin with the September cohort.

Dupree motioned, Al-Hark ▾ seconded, and it was carried to recommend approval of Brookline College BSN Curriculum Program Change.

VII.B.5 Program Approvals

VII.B.5.b Brookline College BSN Adding a Geographic Location Bitza

The proceeding began at 1:55

Bitza did not have any updates.

Abdel Yosef, Provost, was present and addressed the Board stating that with the nursing shortage a new location in Tucson will help ease that burden.

Shevonne Scott, National Dean was present.

Respondent’s attorney, Lynne Adams, was present and addressed the Board stating that Rule 4-19-209 does not include any factors related to Consent Agreements or Probation in its eligibility requirements. Adams stated that Brookline meets all the requirements. With the change in Rule 4-19-207 to relax the requirements, institutions are eligible to open a new program even if on probation.

Bitza addressed the Board on the difference between Rules 4-19-207 and 209. There is no restriction in 209 for programs on probation. McCormies stated that she has seen the negative impacts of a program growing too fast with a lot of change. Yosef stated that they have a full team to support the students and clinical faculty for the Tucson campus.

Board members expressed their concerns of making so many changes when they are on an upward trajectory.

Schultz motioned, Dupree seconded, and it was carried to recommend approval of Brookline College Geographical Addition.
