AZBN Board Minutes

Fountain returned to the meeting at 10:24

The proceeding began at 10:25

Fotinos did not have any updates.

Koshy was present telephonically and available for questions.

Respondent’s attorney, Mandi Karvis, was present and addressed the Board, explaining this was a non-verbal patient for which there were two visits when the caregiver was present but the patient was not present. Karvis stated that Respondent needed to continue medications so as to not harm the patient if the medications were discontinued. Karvis stated that the complainant was more concerned about the caregivers than Respondent. The patient passed away due to medical issues, and it’s not clear that visualizing the patient would have shown the problems. Karvis acknowledged that it is best practice to visually see the patient. She said changes were made at Verizon Health so this won’t happen again. Karvis also stated that the patient’s death was not related to her psychiatric care, and asked for a non-disciplinary resolution.

McCormies asked Fotinos regarding the policies regarding frequency for patients to be seen for visits. Fotinos stated there were no specific policies or guidelines, but generally every 4-6 months if long term care and stable, but shorter intervals if the patient is newer.

Dr. Dupree asked why the December 2022 visit was conducted when Respondent warned the caregiver in September 2022 that the patient must be present for a subsequent visit. Ms. Karvis discussed that Respondent was concerned that the patient would run out of medication causing behavioral concerns. Dr. Hill-Mekoba discussed telehealth practices and the importance of visualizing a non-verbal patient.

Board members further discussed their concerns with conducting audio visits with a non-verbal patient, and the benefits of an in person visit.

Respondent stated that some of this occurred during COVID, and stated she had requested an in person visit, but the patient wasn’t able to come in.

Hill-Mekoba stated that, with virtual care, borders can get blurry, but the provider still must use clinical judgment, and still need to follow the same standards. She said this was a serious and concerning error, but there were some extenuating circumstances.

Hill-Mekoba motioned, Dupree seconded, and after discussion it was unanimously carried, based upon the information presented at this meeting and contained in the Investigative Report, offer a Consent Agreement for a \$500 Civil Penalty. If not signed within 30 days, issue a Notice of Charges.

J. Olson ▾

AKA: Karin K. Braun, Karin

Kulinchenko Gerken

The proceeding began at 4:05

J. Olson ▾ provided an update to the Board, that there is an updated IR and updated stipulation sheet.

Braun was not present.

Respondent's attorney, Julie Gunnigle was present and addressed the Board, stating that she had spoken with Respondent and is aware of the safety concerns. Gunnigle explained that Respondent owns the practice and is an independent practitioner. Respondent asserts she has no affiliation with the certified professional midwives. Gunnigle requested a 12 month probation with direct supervision or the option to come back in 12 months to have probation terminated.

Board members discussed the safety of Respondent's practice and the pattern of behavior.

There was discussion about a 24 month stayed revocation probation consent agreement with direct supervision to allow for night shift with supervisions, and confidential reports to be sent directly to the Board, and a restriction on supervision until Respondent obtained a supervisor who would be a midwife not currently employed by Respondent.

Board members expressed concerns about safety, competency, risky behavior. There was discussion about how many deliveries Respondent handles per month, and Gunnigle said there are about 4-5 births per month and Respondent attends all of the births. Board members discussed options at this Board meeting.

Mamaluy stated that the matter was not on the agenda as a Summary Suspension, and suggested the Board could hold a special board meeting or shorten the time of signing an agreement, and proceed straight to Notice of Hearing instead of Notice of Charges.

There was further discussion regarding the Board's options, given their concern about safety.

Fountain motioned, Smith seconded it was unanimously carried to go into executive session for legal advice. 4:22-4:33

Board members discussed proceeding with a summary suspension now or in July, or with a Stayed Revocation Suspension consent agreement. Board members discussed wanting to summarily suspend Respondent's certificate and license immediately.

AAG Jeanne Galvin stated that the Board may proceed with a summary suspension today. Galvin stated that the facts would need to be articulated in the motion that support a summary suspension and state the violation of law with specific findings that based on the facts and violation the public health and safety require emergency action.

Al-Hark motioned, Dupree seconded, and it was unanimously carried, based upon the information presented at this meeting and Finding of Fact and Statute/Rule violations identified in the Investigative Report, make a finding that public health, safety and welfare imperatively requires emergency action and issue the attached Order summarily suspending the license of Karin Kulinchenko Braun RN196334 and certificate AP11280 pending further hearing. The hearing shall be promptly instituted and determined.

Board members discussed why the option for probation was on RN only and did not include the APRN certificate. Board staff explained that Respondent's national certification expired in 11/2022 causing her AZ APRN to expire as of 12/5/2022. Respondent indicated she has no immediate plans to renew. Mamaluy clarified that as a standard paragraph of a Consent Agreement for Probation would require the matter to return to the Board should she later obtain her national certification and reapply for her AZ APRN certification.

II.G. APRN/RN/LPN/LNA/UCNA Investigative Report/Potential Summary Suspension pursuant to A.R.S. § 41- 1092.11(B), and/or Consideration of Alternative Action

II.G.3. Rejoice Ache Ngam RN272232 Anderson

The proceeding began at 8:33 with the following Board members present: Al-Hark, Ellis, Dupree, Fountain, Hill-Mekoba, McCormies, Smith and Schultz.

Anderson explained that there was a previous question as to whether Respondent had a multistate LPN license in Maryland. Anderson stated that as of February of this year she does have an active LPN license and asked the Board to include taking action on Respondent’s Privilege to Practice.

Board staff tried to contact Ngam twice by telephone with no success.

Board Members discussed taking action on the LPN privilege to practice.

Mamaluy stated that when there is a question of fraud of credentials it goes to the character and legitimacy of the Respondent.

McCormies motioned, Fountain seconded, and it was unanimously carried, based upon the information presented at this meeting and Finding of Fact and Statute/Rule violations identified in the Investigative Report, make a finding that public health, safety and welfare imperatively requires emergency action and issue the attached Order summarily suspending the multistate RN license and multistate LPN license Privilege to Practice of Rejoice Ache Ngam pending further hearing. The hearing shall be promptly instituted and determined.

Ramirez was present and addressed the Board stating she does not want to give out her medical records and is filing a complaint against the evaluator.

McCormies discussed the history of the case. Abbey stated that the State filed a nunc pro tunc motion.

Mamaluy explained that there was a hearing, Respondent accepted the decision, but because there were changes to the time frame for the probation at 12 months rather than 24 months, the State asked the Administrative Law Judge to change the time frames in the Order, which she did. Mamaluy explained for Respondent that the Board previously opened the matter that morning and took no action, which means that the 12 month probation will go into effect.

After brief further discussion, the matter concluded.

AKA: Erin Yvette Enriquez,
Venus Yvette Enriquez

Kimes ▾

The proceeding began at 8:56

Kimes ▾ did not have any updates.

Bonnett was present and available for questions.

Respondent’s attorney, Anne McClellan, was present and addressed the Board, stating that this was one shift and was confusion in calculating time. McClellan stated this was between Respondent and employer and there was no financial gain for seeing more patients, and that this is a documentation case not patient safety concern. McClellan stated that her client was not alleged to have been under the influence and took a urine drug test for the Board, but does not think the hair or nail test is warranted.

McCormies asked Respondent about copy-and-pasting documentation and the allegation that she documented for a patient visit that did not occur.

Respondent explained that she made a mistake after-the-fact that she had documented for the wrong patient.

There was additional discussion about alleged fraudulent documentation. Respondent said there was a misunderstanding as to what she was supposed to bill.

Mamaluy addressed the Board and explained that, in the investigative report, there is a documented history, documentation discrepancies and medication issues the Board has reason for the request of the drug test.

Kimes directed Board members to review a portion of the investigative report.

McCormies discussed the problem with billing 30 minutes when the patient visit was not that long. Board members asked questions of Respondent about documenting visits for patients who she allegedly did not see.

McClellan stated that some patients were not cooperative, and that Respondent at the time thought that she was supposed to include time spent reviewing records, but she no longer does that. McClellan stated this was not done for Respondent’s personal gain.

Dupree explained that an APRN education teaches how to document, so the employer policies are not the issue. Dupree also said that the concern here was the accuracy of the documentation is crucial because, if the patient refused the encounter, that is what should have been documented.

Board members discussed which type of evaluation should be completed - whether an ethics evaluation or a psychological evaluation.

Smith motioned, Ellis seconded, and after discussion it was unanimously carried, on a determination of reasonable cause based upon the information in the investigative report (and material presented at this Board meeting), at no cost to the Board, issue an Interim Order for a 14-panel hair/nail drug test through the Board-approved third party to be completed within 7 days and for an ethics evaluation to be completed by a Board approved nursing ethics evaluator, and to include any additional testing deemed necessary by the evaluator, to be completed within 60 days and then return to the Board. If the hair/nail test or evaluation Order is not completed, based upon the information in the investigative report, issue Notice of Charges and include the factual allegations and alleged violations for failure to comply with the Interim Order.

Portuese provided an update to the Board, that Applicant has an evaluation scheduled for June 19, 2024. Liszewski was present telephonically and available for questions.

Fountain motioned, McCormies seconded, and it was unanimously carried to continue the investigation to allow Applicant the opportunity to obtain a Comprehensive Psychological Evaluation to include a substance abuse evaluation, by a Board approved licensed psychologist, at no cost to the Board, and to include any additional testing deemed necessary by the evaluator, to be scheduled and completed within 45 days and then return to the Board. If the evaluation is not timely completed, based upon the findings of fact and statute/rule violations identified in the Investigative Report, evidence submitted by Applicant, and information presented at this Board meeting, deny reissuance of licensure, as Applicant failed to submit substantial evidence that the basis for the previous surrender has been removed and that the reissuance of Applicant’s license will not be a threat to public health or safety without the proposed evaluation.
