Dr. Fountain motioned, Ellis seconded, the State requests the Board to ACCEPT the Administrative Law Judge’s recommended Order denying Applicant/Respondent’s application for a registered nurse license and modify the Administrative Law Judge’s recommended Order overturning the summary suspension by finding that, based upon the modified Findings of Fact and Conclusions of Law, the Board established that at that time the issuance of the Order of Summary Suspension, the public health, safety, or welfare imperatively required that Applicant/Respondent’s Privilege to Practice under the Nurse Licensure Compact and Applicant/Respondent’s Psychiatric Mental Health Nurse Practitioner Advanced Practice Certificate No. AP8450 be summarily suspended. It is based on the same findings adopted by the Findings of Fact and Conclusions of Law, to REVOKE Applicant/Respondent’s Privilege to Practice Nursing in Arizona under the Nurse Licensure Compact and to REVOKE Applicant/Respondent’s Psychiatric Mental Health Nurse Practitioner Advanced Practice Certificate No. AP8450.

Based on the proposed modifications to the Findings of Fact, the Board would meet and confer with the parties, if they were present, regarding the proposed changes. McCormies asked if the State had any argument in regard to proposed modifications.

D.Abbey stated there were no additional comments other than what is already stated in the written motion and the rationale with it. D. Abbey asked the Board to modify for the rationale stated in the written motion.

DeDea advised that Respondent was properly notified to attend today in case there was a modification to the ALJ decision to allow the parties to meet and confer. Respondent is not present.

D. Abbey recommended revocation, but noted we now have contact with nurse, which they did not have before. Respondent stated she would like the case dismissed, but is also open to monitoring.

The Board noted the importance of keeping current contact information.

The Board discussed options, including a Decree of Censure and Administrative Penalty versus an evaluation, and took into consideration the nurse’s current location.

Carrie Smith advised the Board that if there were to be an evaluation it would need to be part of a probation.

Mamaluy addressed the Board, stating if Respondent does not pay the Administrative Penalty, she will be in violation of a Board order and a new investigation will start.

Carrie Smith addressed the Board, stating that at this point the investigation is complete and if they wanted more information they would need to proceed with probation. Additionally, not paying an Administrative Penalty would start a new investigation.

Caruso addressed the Board, stating Respondent’s license is expired with no attempt to renew.

Mamaluy addressed the Board stating if the Administrative Penalty is not paid, it will trigger a new investigation.

McCormies motioned, Dr. Fountain seconded, and after discussion it was carried, to offer a Decree of Censure for facts 1-3 and to impose an Administrative Penalty of \$200 to be paid within 30 days.

VI.G.4 Jeffrey Alan Osterhoudt RN252432

Bagford

The proceeding began at 1:56 pm.

Bagford provided an update to the Board that on Wednesday a Medical Review Officer report was received, which reviewed the positive methamphetamine results with an opinion that the positive methamphetamine test could possibly be related to environmental exposure due to the lack of an expected metabolite within the hair.

Osterhoudt was present telephonically and addressed the Board, stating he once suffered from addiction, but is now clean. The levels were due to environmental exposure.

Board members discussed concerns about the high levels of methamphetamine present in the RecoveryTrek report from Respondent’s drug test.

Dr. Dupree motioned, based upon the information presented at this meeting and contained in the Investigative Report, offer a Consent Agreement for a stayed revocation suspension, not to exceed 12 months, pending the completion of a substance abuse evaluation by a Board-approved licensed psychologist with expertise in substance abuse, at no cost to the Board, and the successful completion of any acute treatment recommendations resulting from the evaluation and confirmation from either the evaluator or treatment providers that Respondent is safe to return to practice, followed by a stayed revocation probation for a minimum 36 months if found to have a substance use disorder or if substance use related treatment recommendations are made, or for a minimum 24 months if not found to have a substance use disorder and no substance use related treatment recommendations are made, and to include the attached stipulations. If not signed within 30 days, issue a Notice of Charges.

Motion failed for lack of a second. The Board discussed that if the evaluation did not find a current substance use disorder, there would be no reason to place Respondent on probation.

McCormies motioned, Dr. Dupree seconded, and it was unanimously carried on a determination of reasonable cause based on the information in the Investigative Report, and material presented at this Board meeting, at no cost to the Board, issue an Interim Order for a comprehensive psychological evaluation to include a substance abuse evaluation to be completed by a Board-approved licensed psychologist, and to include any additional testing deemed necessary by the evaluator, to be completed within 45 days and then return to the Board. If the Interim Order is not completed, based upon the information in the investigative report, issue a Notice of Charges and include the factual allegations and alleged violations for failure to comply with the Interim Order.

VI.I.1 Jodi Michelle Cetwinski Reissuance RN152752; Portuese
AKA: Jodi Michelle Beem, LPN042779;
Jodi Michelle Jones UCNA999949921

The proceeding began at 2:23 pm.

Portuese did not have any updates.

Cetwinski was present telephonically and addressed the Board, stating she has made positive changes in her life and requested she be able to complete probation hours in Tennessee if given probation and requested that the Board lessen the probation length..

Board members discussed how long the probation would be and if she would need to work and serve her probation in Arizona.

K. Olson addressed the Board stating the stip sheet can be changed to allow out of state practice.

Caruso addressed the Board stating Tennessee State Board of Nursing will not allow her to work on probation in that state. Portuese confirmed this and stated she has been in contact with Tennessee Board of Nursing staff. Per the Executive Director of the Tennessee Board of Nursing, Applicant’s discipline must be remediated in the issuing state before she can be considered for licensure in Tennessee.

Board members discussed how many hours per week is required for a probation, as well as the length of probation.

McCormies motioned, Dr. Fountain seconded, and after discussion it was unanimously carried, based upon the Findings of Fact and Statute/Rule violations identified in the Investigative Report, evidence submitted by Applicant, and information presented at this Board meeting, upon meeting all licensure requirements and a signed Consent Agreement for a minimum 24-month stayed revocation probation, grant licensure, immediately revoke the license and stay the revocation. The license will be initially limited for participation in an RN Board-approved refresher or equivalent course only. Applicant will have 12 months to complete this course. Upon successful completion of this course, the limitation shall be lifted, and the stayed revocation probation continued under applicable terms for 24 months, contained in the amended attached stipulation worksheet. If the refresher or equivalent course is not completed within 12 months, or other violations of probation occur the stay shall be lifted and the license revoked. If not signed within 30 days, deny reissuance of licensure, as Applicant failed to submit substantial evidence that the basis for the previous surrender has been removed and that the reissuance of Applicant’s license will not be a threat to public health or safety without the proposed additional monitoring and remediation.

Childs was present telephonically and was available for questions.

McCormies motioned, Dr. Fountain seconded, and it was unanimously carried, based upon the Findings of Fact and Statute/Rule violations identified in the Investigative Report, evidence submitted by Applicant, and information presented at this Board meeting, upon meeting all licensure requirements and signing a Consent Agreement for a stayed revocation suspension not to exceed 12 months, to be followed by a minimum 36-month stayed revocation probation; grant licensure, immediately revoke the license, and stay the revocation. Once Applicant completes the terms of the suspension, the stayed revocation suspension will be lifted and the license will be initially limited for participation in an LPN Board-approved refresher or equivalent course only. After successful completion of this course, the limitation shall be lifted, and the stayed revocation probation continued under applicable terms contained in the attached stipulation worksheet. If not signed within 30 days, deny reissuance of licensure, as Applicant failed to submit substantial evidence that the basis for the previous surrender has been removed and that the reissuance of Applicant’s license will not be a threat to public health or safety without the proposed additional monitoring and remediation.
